# TRANSTAR®

AUTOBODY TECHNOLOGIES, INC.

## EXPERIENCE

For over 70 years Transtar Autobody Technologies has been formulating quality product solutions that benefit our customers, our industry and the environment. We stand by our reputation as a premium manufacturer of adhesives and sealants, specialty coatings, primers, clearcoats and finishing products. Around the world bodyshops have turned to us to provide the competitive edge necessary for consistent growth and customer satisfaction. At Transtar, we are dedicated to your business and to establishing the foundation for a lasting business partnership. And as history has shown, we have over seven decades of experience supplying automotive refinish solutions to the industry.

## INNOVATION

Through the years Transtar assumed a unique leadership role that sees the future within the marketplace. Our company focused on developing environmentally-conscious products long before aggressive VOC restrictions were placed on the collision repair industry. In the late 1980s Transtar introduced Hydroflex®, the first high build, ready-to-spray waterborne primer. In the mid 1990s we pioneered 2.1 VOC clearcoats and primers specifically geared for the most stringent North American VOC regulations. Our introduction of No Mix® Low VOC Basecoat marked the industry's first solvent-based basecoat that is compliant across North America. We take pride in our ability to supply the industry with cutting edge technology and a system of products that meets all regulatory requirements—start to finish.

YOUR BUSINESS  
IS OUR BUSINESS!

## COMMITMENT

With Transtar Autobody Technologies you have the opportunity to take the next step. Experience higher bottom line profits, use an industry proven line of over 300 premium products, work with dedicated sales personnel and be confident knowing we are committed to your success. It's time to make your move. Transtar is a research driven and technically proven manufacturer with the product solutions of today... and tomorrow.

## THE TRANSTAR ADVANTAGE

- Local Sales Support
- VOC Compliant Systems
- Broad Product Line with Proven Performance
- Lifetime Warranty Program
- National Jobber Network
- On Site Product Demonstrations and Training
- Technical Support

**EXPERIENCED.  
INNOVATIVE.  
COMMITTED TO  
YOUR SUCCESS.**

**TRANSTAR IS THE  
AUTOBODY SOLUTIONS  
COMPANY.**

## NO MIX<sup>®</sup> LOW VOC BASECOAT. THE SOLVENT SOLUTION.

Transtar's No Mix<sup>®</sup> Low VOC Basecoat utilizes the latest in pigment and resin technologies to deliver superior pigment distribution and flake control. Since this low VOC system is solvent-based, it does not require additional investments in equipment, booth conversions or training. Simply put, No Mix<sup>®</sup> Low VOC is one of the most efficient systems on the market. Our product increases productivity, improves color match and reduces cycle time. Its unique composition also eliminates the need for costly mixing banks. Just shake, and pour!

Transtar's No Mix<sup>®</sup> Low VOC Basecoat offers a complete color palette including solid, metallic, pearl and xirallc toners. For optimum results, select from Transtar's complete system of high performing prep products, primers, clearcoats and finishing products for use with our No Mix<sup>®</sup> Low VOC Basecoat.

### Benefits over traditional basecoat systems:

- No need for mechanical agitation
- No expensive, noisy mixing machine required
- Superior pigment distribution that eliminates mottling
- Improved color depth, which provides better coverage (hiding 2-3 coats)
- Consistent toner strengths, which eliminate costly color matching
- Improved productivity and reduced cycle time

THE AUTOBODY SOLUTIONS COMPANY.

## Clearcoats & Activators

- High and Medium Solid Clears
- Speed, Glamour and High Production Clears

## Primers

- Urethane, Epoxy, Self-Etch, Polyester, Rollable, Waterborne

## Sealers

- 2K and 1K
- Non-Sanding
- Star Shade for Color Match (Tintable)

## Color System Additives

- Basecoat Binders & Balancers
- Reducers
- Hardeners

## Plastic Repair

- Adhesion Promoters
- Repair Materials
- Flexible Primers
- Fiberglass Mesh Tape

## Specialty Products

- Chip Guards
- Undercoatings
- Aerosol Primers
- Putties
- Scuff & Prep Paste

## Seam Sealers & Adhesives

- Metal Bonding System
- Control Flow, Sprayable and Brushable Seam Sealers
- Automotive Attachment Tapes & Adhesion Promoter

## Compounds & Glazes

- Cutting Compounds
- Machine Polish
- Swirl Remover
- All-in-One Detailer

## Paint

- No Mix<sup>®</sup> Low VOC Basecoat System

## Tools & Accessories

- HVLP Spray Guns
- LVLP Spray Guns
- Seam Sealer & Adhesives Guns
- Undercoating Guns
- Orbital Palm Sanders
- General Purpose Abrasive Discs, Stripe Eraser Wheels and Tools
- Polishing Pads
- Trim Kut Abrasives
- Sticks & Strainers
- Mixing Cups
