

Low Spot Finder Guide Coat

9183

Low Spot Finder Guide Coat is a specialty coating that will provide the technician with a visual aid to ensure primed surfaces are totally smooth. This product sands easily and will not clog sandpaper. Low Spot Finder Guide Coat is fast drying and ready to sand in minutes. It provides the quick and efficient method to find low spots on body filler, primer, glazing putties and other repair components.

Mix Ratio

Ready to use.

Surface Prep & Application

Shake can well before using. Hold can in an upright position and spray 12" from the surface, apply a light even coat over the primed area. Sand (Dry #80 grit, finish #600 grit or Wet: #400 grit, finish #800 grit) until Low Spot Finder Guide Coat is no longer visible. Clean nozzle by inverting can and spraying until mist is clear.
